

DECORA POWDER COATINGS: PROFESSIONAL RAL FINISH GUIDE

The Gold Standard in Architectural Finishing
Decora Powder Coatings provides high-performance finishing solutions for aluminum extrusions and metal fabrications. Our state-of-the-art facility in Ontario utilizes advanced vertical coating technology to deliver a flawless, durable finish that meets the most demanding architectural specifications.

Technical Capabilities & Quality Assurance
AAMA Compliance: Our coatings are available to meet AAMA 2604 and 2605 standards, offering superior resistance to UV degradation, salt spray, and humidity.
Sublimation Excellence: Beyond solid RAL colours, we specialize in high-definition woodgrain sublimation, allowing for the beauty of wood with the durability of powder-coated aluminum.
Eco-Friendly Process: Our facility is committed to sustainability. Our powder coatings are VOC-free, and our process minimizes waste, making it the responsible choice for green building initiatives.

Why Partner with Decora?
Industrial Durability: Our finishes are designed to withstand the harsh Canadian climate, protecting the substrate from corrosion and wear.
Fast Turnaround: With our efficient coating lines and local Ontario facility, we offer competitive lead times for both standard and custom projects.

Colour Accuracy Warning: Due to variations in monitor settings and printing processes, the colors in this digital guide should be used for reference only. We highly recommend ordering a physical powder-coated sample for final color matching.

Ordering & Customization

Custom Matches: Don't see the exact shade you need? We can provide custom colour matching to any physical sample or paint code.

- Lead Times:** Standard RAL colours typically ship within our regular production window. Custom colour matching may require additional lead time.
- Samples:** Physical colour chips are available upon request to ensure your project looks exactly as envisioned.
